

BCN ROTTERDAM

You want the perfect location for the training course you are organizing. It must provide state-of-the-art technology, catering, be accessible, and offer parking. But the finishing touch in making sure your training course is the perfect event comes down to more than professional facilities alone. It also decided by the customer friendliness and service offered by the professional staff at the location, available to welcome and provide support to coaches, docents, and course participants. We are specialized in that unique combination of hospitality and professionalism. We provide course facilities. Not only the rooms, but also by helping you make sure your training courses, meetings and workshops even more successful. Needless to say, we operate at the highest levels of responsibility and focus. We deliver on the promises you made to your associates, colleagues and course participants.

We think it is important that our customers and students can easily reach us by public transport and by car. This allows them to choose for themselves which mode of transport they prefer. At the same time, we see that more and more clients are encouraging their participants to travel by public transport. Given the traffic congestion, loss of time and CO2 emissions in cars, we understand that. We ourselves also like a good balance between people, planet and profit. But of course you can choose. And whatever you choose, you are always on your way to BCN.
